## **One-Year Goals**

Fill out this form with short-term goals you would like to accomplish in one year. If your goal has too many steps, break it down and include the steps it takes to get there as a goal. Remember a year is a long time to get some things done, like creating a mailing list, and a very short amount of time to do something like securing a solo show. Be realistic about what you can accomplish in this period of time.
