Ten-Year Goals

Fill out this form with goals you would like to accomplish in ten years. If your goal has too many steps, break it down and include the steps it takes to get there as a goal. A lot can change in a decade. Use these goals to visualize your practice in ten years. Where do you want to live, work, and play? What art do you want to make and how much do you want to get paid for it? Who do you want in your life?
